

IMPORTANT NOTE: This self-test luminaire is configured to manual test mode by default.

If self-test mode is required, it should be activated via remote control (ref.: REM-E1).

With this feature enabled, functional and duration tests are conducted according to BS EN 50172:2004

This product is compatible with our infrared remote control.

To optimise long-term battery performance, the luminaire will operate for 3 hours before automatically shutting down.

The battery must be recharged within 6 months of full discharge.

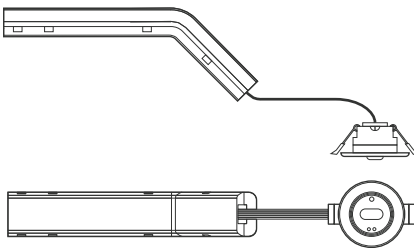

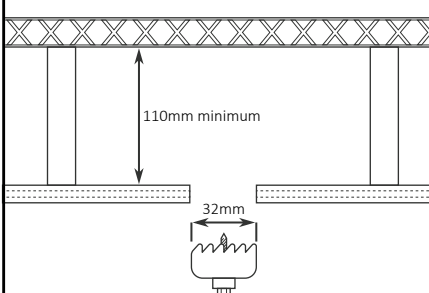

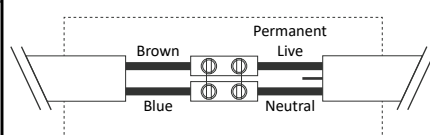

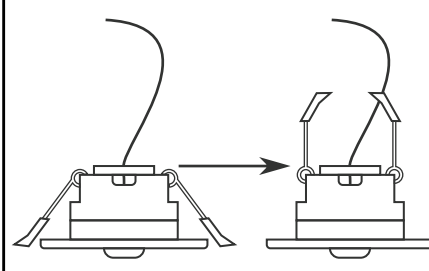

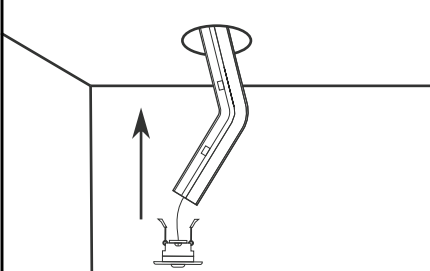

When the rated operational time is no longer reached after a full recharge, the battery must be replaced.

Indicator LED Status

GREEN LED	RED LED	STATUS
On	Off	Standby
Slow Flash	Off	Charging
Fast Flash	Off	Function test or duration Test in progress.
Off	On	Battery disconnected / Duration test failed.
Slow Flash	Slow Flash	Battery temperature out of operational range.
Off	Slow Flash	Light source faulty

NOTE: "Slow Flash" = 1 flash per second. "Fast Flash" = 2 Flashes per second

Installation Guide

<p>1 Remove Product from Packaging</p> 	<p>2 Prepare Mounting Location</p> <p>Prepare 32mm cut out hole in mounting surface.</p> 	<p>3 Connect Mains Supply</p> <p>Connect the mains with appropriate terminals.</p>

Dokładny model urządzenia oznaczone na etykiecie w środku.</p>

IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.

At the end of its working life, the product must not be disposed of as urban waste.

It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health, deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
